

## Official Product Launch & Distribution Partner, Zuellig Pharma

We are proud to announce the launch of Novugen's Novugab (Pregabalin) and Tadigra (Tadalafil), the company's FIRST two products launched in Malaysia on 15 March 2022.

**Novugab (Pregabalin)** is used for relieving pain caused by damaged nerves that occurs mainly to diabetic patients, patients who developed shingles, patients who suffer from stroke or post-surgical pain.

**Tadigra (Tadalafil)** is used for men who are facing sexual impotence and prostate gland enlargement condition.

It is also with great pleasure to announce that Novugen has appointed Asia's leading healthcare services provider, Zuellig Pharma as our exclusive distribution partner for our products in all healthcare sectors in Malaysia's nationwide market. The first batch of our product has been delivered from our own manufacturing facility, Novugen.

With hard work and dedication of our team, Novugen is on track to expand our products reach to patients, everywhere. It also signifies our commitment to ensure fast accessibility of cost effective, global standard products to a wide market locally!
